

The Cigma advantage

35 years in the commercial window coverings industry, a commitment to customer service excellence, and an extensive offering of elegant designer products has established Cigma Blinds as the preferred manufacturer of roller shades and blinds in the Southeast United States. It's a remarkable time to be a Cigma client and to experience the renaissance of energy-efficient Cigma products engineered to optimize savings and comfort on an unprecedented scale. High-performance fabric and polymer technologies developed by our affiliate partners within the last 5 years are literally redefining the market and empowering architects to innovate and achieve sustainability without compromise.

Our North America services provides turnkey custom solutions and competitive pricing for architects and all commercial and residential window coverings applications including: *general contractors, property managers, high-rises, office buildings, manufacturing plants, government facilities, schools, hotels, restaurant chains.*
